

2 THE RESCUE

LIFE SAVING TRAINING

Wreck Kills Firefighter, Deputy Directing Traffic

Michigan EMT Dies After Being Struck at Crash Scene

Scene Safety and Traffic Control

\$350.00 per seminar (not per person)

3 hours

Michigan EMS Continuing Education Approved

This combination classroom and hands on training will cover the Manual of Traffic Control Devices (MUTCD), OSHA and DOT regulations for traffic zone compliance for the emergency responder and the implementation of Standard Operating Guidelines. We will identify several approaches for operating in and near vehicle traffic and other environmental hazards by covering the following topics:

- Scene Problem Recognition
- Vehicle Placement
- Apparatus Exiting Protocols
- Flare and Cone Patterns and Positioning
- Traffic Regulator Qualifications and Equipment
- Universal Traffic Control Signals

SCENE SAFETY
